The Environmental Assessment Act, 1975

MTC-16

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Minister of Transportation and Communications that an undertaking, namely,

That an Environmental Assessment documenting the planning portion of the activity of carrying out planning, design, provision and construction under that portion of the Provincial Roads construction program associated with the proposed facility between Thunder Bay and Kakabeka Falls, be exempted from submission, review and hearing under the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The public will be interfered with in relation to property transactions, due to uncertainty as to the status of the highway in light of the public announcement of the route between Thunder Bay and Kakabeka Falls, and subsequent delays pending approval under the Act;
2. The Crown will be interfered with due to delay in proceeding with design associated with property transactions, and delay in the property transactions themselves.

Having been advised of an existing environmental process implemented by the Ministry of Transportation and Communications with respect to projects commenced before the Act came into force; and that the Ministry has carried out extensive investigations and public participation before selecting the route of this section of highway; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

1. The protection, conservation and wise management of the environment will be sufficiently provided for by the integration of environmental considerations in the process already followed by the Ministry of Transportation and Communications as part of its policy.
2. Any delay to the carrying out of property transactions would cause undue hardship to the affected landowners.

This exemption is subject to the following terms and conditions:

1. That the Ministry of Transportation and Communications shall prepare and submit an Environmental Status Statement documenting the planning phase of the undertaking; and
2. Shall prepare and submit an Environmental Assessment dealing with the design, provision and construction portion of the study, prior to the tendering of any portion of this project, consistent with the requirements of the Act.

This order comes into force and has effect on and after the day of signature.

Dated at Toronto, this 24th day of January, 1979.

HARRY C. PARROTT D.D.S.,
Minister of the Environment.

Approved by:
O.C. No. 20/79

MOE-13

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption Section 30

Having received a request from the Ministry of Environment that the undertaking, namely:

The activity of constructing the Township of Russell (Police Village of Embrun) Provincial Sewage and Water Works Programs, #1-0225 and #5-0120 respectively as described in Schedule A,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertakings are subject to the application of the Act the following injury, damage or interference with the persons or property indicated will occur:

1. The public will be interfered with by delaying the construction of sewage collection and treatment facilities upon which the property owners of Embrun are depending to correct the existing conditions of septic tank failures and raw sewage gaining access to roadside ditches;
2. The public will be interfered with by delaying the development of water supply facilities upon which the owners of existing homes are depending to insure a secure potable supply of water for Embrun; and
3. The Municipality will be interfered with by having to delay the approval of subdivisions until adequate servicing is available; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertakings being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertakings are exempted from the application of the Act for the following reasons:

1. The sewage works project was initiated in 1970 and the lagoon site was approved by the Environmental Hearing Board in February, 1971 and acquired in September, 1974. This undertaking has reached a sufficiently advanced stage, by the date the Act came into force, that the environmental assessment process would be severely restricted by the commitments and decisions made to date and therefore would not serve a useful purpose for this undertaking.
2. The water system was initiated in 1970 and following 7 years of studies and a well drilling program, it has been determined that adequate supplies of good quality water from wells are not possible. The only possible alternative source is the Casselman WTP.
3. A boil water order has been imposed on the community since 1970 as a result of studies showing that the existing wells are being contaminated by faulty septic systems and creating a health hazard.
4. Since the sewers and water mains will be constructed predominantly within existing road allowances, there will be no long term environmental degradation associated with them.

This exemption order is subject to the following terms and conditions:

1. The Environmental Assessment Section of the Environmental Approvals Branch be involved at all stages of the planning of any contract that could have environmental implications.

2. The proponent is to ensure that the construction specifications contain the pertinent sections of the Ministry of the Environment's publication "*Environmental Considerations for the Planning and Construction of Provincial Sewer and Water Projects*" and that those safeguards are followed during construction.
3. Details of the proposed method for crossing the Castor River with the sewer shall be submitted to the Environmental Assessment Section for approval prior to commencement of construction.

This order comes into force and has effect on and after the day upon which it is signed.

Dated at Toronto, this 24th day of January, 1979.

HARRY C. PARROTT D.D.S.,
Minister of the Environment.

Approved by
O.C. No. 11/79

THE ASSESSMENT ACT

O. Reg. 82/79.

Equalization of Assessments made
Pursuant to Section 86 of The
Assessment Act.

Made—February 1st, 1979.

Filed—February 1st, 1979.

REGULATION MADE UNDER THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE PURSUANT TO SECTION 86 OF THE ASSESSMENT ACT

1. The equalization of assessments under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 86 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1978 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1978 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1978 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1978 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1978 against the total assessment for that prescribed class of real property in that municipality.
2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1975, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.

3. The total of the assessment of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.

4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality. O. Reg. 82/79, s. 1.

2. This Regulation applies to the municipalities named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in each such municipality for the year 1978 for taxation in the year 1979. O. Reg. 82/79, s. 2.

3. For the purposes of this Regulation, the real property situate in each municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the Schedule to this Regulation for that municipality, and all real property in the municipality shall be allocated to that prescribed class of real property that most nearly describes the physical nature and characteristics of the real property. O. Reg. 82/79, s. 3.

4. For the purpose of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 82/79, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed as residential and comprising no more than two residential units, including vacant land municipally zoned principally for residential development described in this class.

CLASS 2

Property assessed as residential and comprising not fewer than three or more than six residential units, including all row housing and vacant land municipally zoned principally for residential development described in this class.

THE MINING TAX ACT, 1972

O. Reg. 89/79.

General.

Made—February 7th, 1979.

Filed—February 9th, 1979.

REGULATION TO AMEND ONTARIO REGULATION 126/75 MADE UNDER THE MINING TAX ACT, 1972

- 1.—(1) Clause *k* of section 1 of Ontario Regulation 126/75 is revoked and the following substituted therefor:

(*k*) "processing allowance" means an allowance for profit on processing determined by multiplying the capital cost to the operator

of all processing assets in Canada as constructed by the percentage amount set out in or determined under section 5;

- (2) Subclause iv of clause *l* of the said section 1 is revoked and the following substituted therefor:

(iv) social assets;

- 2.—(1) Subsection 1 of section 3 of the said Regulation is revoked and the following substituted therefor:

(1) For the purposes of disaggregation under subsection 2*a* of section 3 of the Act, an open pit mine or an underground mine may be deemed to be a mine brought into active operation for the first time after the 9th day of April, 1974, if,

(*a*) in the opinion of the mine assessor the mine is,

(i) a new mine project separate and distinct geologically and having no common workings with another mine during the immediately preceding five taxation years,

(ii) a mine project involving an investment at an existing mining operation that increases the rate of ore production from the mining operation by at least 30 per cent over the highest annual production during the immediately preceding five taxation years for each expanded mine, or

(iii) a mine inactive on the 9th day of April, 1974 that is reopened or that, if closed down after that date, remains closed down for a continuous period of five years before reopening; or

(*b*) the mine is any other major mining investment that, in the opinion of the Lieutenant Governor in Council, warrants disaggregation. O. Reg. 89/79, s. 2 (1).

- (2) The said section 3 is amended by adding thereto the following subsections:

(2*a*) No mine shall be disaggregated under subsection 1 unless the mine assessor rules that it falls within one of the criteria set out in clause *a* of subsection 1 or the Lieutenant Governor in Council determines that it warrants disaggregation. O. Reg. 89/79, s. 2 (2), *part*.

(4) An open pit mine or an underground mine that qualifies prior to the 8th day of March, 1978

for disaggregation under paragraph i or ii of subsection 1, as the subsection existed immediately prior to that date, remains qualified for disaggregation if the mine assessor is advised of such qualification prior to the 1st day of April, 1979. O. Reg. 89/79, s. 2 (2), *part*.

3. The said Regulation is amended by adding thereto the following section:

3a.—(1) For the purposes of subclause iii of clause *k* of subsection 3 of section 3 of the Act, a new mine shall be deemed to have come into existence or a major expansion of an existing mine shall be deemed to have occurred after the 7th day of March, 1978, if,

(a) in the opinion of the Minister such new mine or major expansion is,

- (i) a new mine project separate and distinct geologically and having no common workings with another mine during the immediately preceding five taxation years,
- (ii) a mine project involving an investment at an existing mine operation that increases the rate of ore production from the mining operation by at least 30 per cent over the highest annual production during the immediately preceding five taxation years for each expanded mine, or
- (iii) a mine inactive on the 7th day of March, 1978 that is reopened, or that, if closed down after that date, remains closed down for a continuous period of five years before reopening; or

(b) the mine or expansion is designated by the Lieutenant Governor in Council as a new mine or a major expansion of an existing mine.

(2) Where the Minister is of the opinion that a new mine has come into existence or a major expansion of an existing mine has occurred after the 7th day of March, 1978, he may designate it as a new mine or a major expansion of an existing mine for the purposes of subclause iii of clause *k* of subsection 3 of section 3 of the Act.

(3) The date of completion of a mine project for the purposes of subclause iii of clause *k* of subsection 3 of section 3 of the Act shall be determined by the Minister. O. Reg. 89/79, s. 3.

4.—(1) Clause *b* of subsection 1 of section 4 of the said Regulation is amended by striking out "in Canada" in the first line.

(2) Clause *ba* of subsection 1 of the said section 4, as made by section 1 of Ontario Regulation 199/76, is revoked and the following substituted therefor:

(ba) that proportion of the operating and the maintenance expenses directly related to social assets in Ontario that is directly attributable to the processing in Canada of the ore or mineral output after deducting therefrom all rents, fees, grants and other payments received during the taxation year by the mine operator in connection therewith to the extent that such expenses are not deductible under clause *ea* of subsection 3 of section 3 of the Act;

(3) Clause *e* of subsection 1 of the said section 4 is revoked and the following substituted therefor:

(e) an allowance for depreciation in each taxation year, on a straight line basis, of not more than 15 per cent of the capital cost to the operator as constructed of the processing assets and assets for transportation of the finished product to market from the point at which processing is completed until the full cost thereof has been written off, computed at the close of the taxation year; and

(4) The said section 4 is amended by adding thereto the following subsection:

(1a) Notwithstanding clause *e* of subsection 1, where processing assets are situate outside of Canada or assets for transportation of the finished product are used outside of Canada, the depreciation allowed on those assets shall be prorated on the basis of the amount of the ore or mineral output of a mine located in Ontario that is processed or the amount of finished product derived from ore or mineral output of a mine located in Ontario that is transported by those assets. O. Reg. 89/79, s. 4 (4).

(5) The said section 4 is further amended by adding thereto the following subsection:

(1b) Notwithstanding clause *e* of subsection 1, no allowance for depreciation on any asset that is a social asset shall be deducted under subsection 1. O. Reg. 89/79, s. 4 (5).

(6) Subsections 4 and 5 of the said section 4 are revoked and the following substituted therefor:

(4) The undepreciated capital cost of processing assets at any time is the amount by which the aggregate of,

- (a) the capital cost of each processing asset acquired before that time; and
- (b) all amounts included by reason of subsection 4a in appraising the value of mineral substances under subsection 1,

exceeds the aggregate of,

- (c) the total depreciation allowed under subsection 1 for processing assets before that time; and
- (d) for each disposition before that time of any processing asset, the lesser of,
 - (i) the proceeds of the disposition, and
 - (ii) the capital cost to the operator of the processing asset or part thereof.

(4a) Where at the end of any taxation year, the aggregate of all amounts determined under clauses c and d of subsection 4 exceeds the aggregate of all amounts determined under clauses a and b of subsection 4, the excess shall be included in appraising the value of mineral substances under subsection 1.

(5) Where any processing asset was not acquired or disposed of at arm's length and the Minister considers it necessary or advisable, he may determine in accordance with section 4b the capital cost and the proceeds of disposition of the processing asset for the purposes of this section.

(5a) For the purposes of this section and section 4b, the rules determining "at arm's length" in section 251 of the *Income Tax Act* (Canada) apply with necessary modifications. O. Reg. 89/79, s. 4 (6).

5. The said Regulation is further amended by adding thereto the following sections:

4a.—(1) Notwithstanding clause b of subsection 1 of section 4, where mineral substances are transported outside Canada by the operator or other person liable for the tax imposed under the Act and are subsequently processed outside Canada by or on behalf of such operator or other person, no deduction shall be made for the cost of processing outside of Canada to such operator or other person the proportion of the output of the mine that is attributable to a specified uranium undertaking in respect of a taxation year ending after the 9th day of April, 1979.

(2) Notwithstanding clause ba of subsection 1 of section 4, no deduction shall be made under that clause for the proportion of expenses that is attributable to a specified uranium undertaking.

(3) No deduction shall be made under clause e of subsection 1 of section 4 for depreciation on the proportion of capital costs as constructed of processing assets not situate in Canada and assets for transportation of finished product to market from the point at which processing is completed that is attributable to the operation of a specified uranium undertaking.

(4) Notwithstanding clause e of subsection 1 of section 4, a deduction under that clause for depreciation in each taxation year, on a straight line basis, shall be not less than 5 per cent and not more than 15 per cent of the proportion of capital cost as constructed of the processing assets situate in Canada and assets for transportation of the finished product to market from the point at which processing is completed that is attributable to the operation of a specified uranium undertaking, until the full cost thereof has been written off, computed at the close of a taxation year.

(5) Subsection 5a of section 5 does not apply to that proportion of processing allowance that is attributable to the processing of the output of a specified uranium undertaking. O. Reg. 89/79, s. 5, *part*.

4b.—(1) For the purposes of this section, "depreciated asset" means an asset in respect of which an allowance for depreciation has been deducted under the Act or this Regulation.

(2) Where a depreciated asset owned by an operator is transferred by one or more transactions between persons not dealing at arm's length to another operator for an amount in excess of the capital cost to the transferor,

- (a) the transferor shall be deemed to have disposed of the depreciated asset for proceeds of disposition; and
- (b) the transferee shall be deemed to have acquired the depreciated asset at a capital cost,

equal to the actual proceeds of disposition or the capital cost to the transferor, whichever is the lesser.

(3) Where a depreciated asset owned by an operator is transferred by one or more transactions between persons not dealing at arm's length to another operator for no proceeds or for proceeds less than or equal to the capital cost to the transferor,

- (a) the transferor shall be deemed to have disposed of the depreciated asset for proceeds of disposition; and
- (b) the transferee shall be deemed to have acquired the depreciated asset at a capital cost,

equal to the actual proceeds of disposition. O. Reg. 89/79, s. 5, *part*.

6.—(1) Subsection 5 of section 5 of the said Regulation is amended by adding at the beginning thereof “In any taxation year”.

(2) The said section 5 is amended by adding thereto the following subsection:

(5a) For taxation years ending on or after the 31st day of December, 1978, where a processing allowance calculated under this section is less than 65 per cent of the combined profit for the current taxation year, processing allowance not previously claimed by reason of the upper limit imposed by subsection 5, in the three taxation years immediately preceding, may be allowed under clause *f* of subsection 1 of section 4, provided that the processing allowance deductible in the current taxation year is first fully deducted. O. Reg. 89/79, s. 6 (2).

7. Subsection 2 of section 6 of the said Regulation is revoked and the following substituted therefor:

(2) Subject to subsection 3, where a mine is entitled to disaggregation under subsection 2a of section 3 of the Act or is entitled to be treated as a new mine or a major expansion of an existing mine under subclause iii of clause *k* of subsection 3 of section 3 of the Act, the profit shall be apportioned amongst all mines operated by the same person or associated persons in proportion to the value of the recoverable mineral content of ore mined during the taxation year, but the mine assessor may use any other method that is appropriate. O. Reg. 89/79, s. 7.

8.—(1) This Regulation, except subsection 2 of section 1 and subsections 2 and 5 of section 4, shall be deemed to have come into force on the 8th day of March, 1978.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

- (c) "elementary school pupil" means an elementary school pupil as defined in section 1 of Ontario Regulation 108/79;
- (d) "pupil accommodation charge" means pupil accommodation charge as defined in section 1 of Ontario Regulation 108/79;

- (g) "technological studies" means the courses developed from curriculum guidelines that are issued by the Minister for the intermediate division and senior division and listed under the heading "Technological Studies" in circular H.S. 1 issued by the Ministry.

(2) Where a board of education provides instruction for one or more pupils in respect of whom fees are receivable, the fees shall be calculated under this Regulation as if the board of education were a public school board and a secondary school board.

2.—(1) Subject to subsection 2 and to sections 3 and 6, where a board provides instruction for pupils whose fees are receivable from another board or from Canada, the fees shall be calculated by,

(a) subtracting from the current cost of operating of the board that provides the instruction the grant payable to such board under subsections 1 and 2 of section 10 of Ontario Regulation 108/79 and dividing the difference so obtained by the average daily enrolment for 1979 of such board; and

(b) multiplying the average daily enrolment of the elementary or secondary school pupils whose fees are receivable from the other board or from Canada, as the case may be, by the sum of,

(i) the amount determined under clause *a*, and

(ii) except where the board that provides the instruction is a board appointed under section 68 of the Act, the pupil accommodation charge for such pupils.

(2) Where a board has entered into an agreement under subsection 2 of section 162 of the Act that provides for a payment by the Crown in right of Canada to provide classroom accommodation for a specified number of pupils, the pupil accommodation charge for each such pupil shall, notwithstanding clause *d* of subsection 1 of section 1, be deemed to be zero.

3. Where a board appointed under section 68 of the Act operates a school in a centre for the treatment of cerebral palsy, a crippled children's treatment centre, a hospital or a sanatorium and provides instruction therein for pupils whose fees are receivable from any source, the fee for such a pupil shall be calculated by,

(a) adding to the current cost of operating of the board for the year in which it provides the instruction, the portion approved by the Minister for grant purposes of the expenditure for such year for the transportation of pupils, and deducting from the total thereof the general legislative grants payable to the board for such year except a grant that is equal to the cost of education;

(b) dividing the amount determined under clause *a* by the sum of the days on which each pupil is enrolled at the school; and

(c) multiplying the amount determined under clause *b* by the number of days for which the pupil whose fee is being calculated is enrolled at the school.

4. Where a board, except a board appointed under section 68 of the Act, provides instruction for a pupil in respect of whom fees are required to be paid, other than a pupil whose fees are receivable from another board or from Canada, the fees pay-

able by or on behalf of the pupil shall be such as the board may prescribe but, subject to subsection 4 of section 6, shall not exceed the product obtained by multiplying the average daily enrolment of such pupil for the year in which such instruction is provided by the quotient obtained by dividing,

(a) the excess of,

(i) the sum of the amounts that the board that provides the instruction, requisitioned, levied or caused to be levied in the preceding year for public, secondary or separate school purposes, as the case may be,

over,

(ii) the sum of,

a. the payments in lieu of taxes for 1978, as defined in section 1 of Ontario Regulation 65/78, in respect of, and

b. the portions allocated to the board for 1977 of tax levied under section 304*a* of *The Municipal Act* by,

the municipalities within the jurisdiction of the board, for public, secondary or separate school purposes, as the case may be,

by,

(b) the average daily enrolment for such preceding year of resident-internal pupils and resident-external pupils of the board that provides the instruction.

5. Notwithstanding section 4, where in any year a board provides instruction for a pupil in respect of whom fees are required to be paid and whose parent or guardian does not reside in Ontario, the fees payable by or on behalf of the pupil shall be such as the board may prescribe but, subject to subsection 4 of section 6, shall not exceed the product obtained by multiplying,

(a) one-tenth of the sum of the quotient determined under clause *a* of subsection 1 of section 2 and the pupil accommodation charge for the pupil,

by,

(b) the number of months during which the pupil is enrolled in such year in a school operated by the board that provides the instruction.

6.—(1) In this section "high-cost program" means,

(a) a program of special education;

- (b) a program for trainable retarded children;
- (c) a program that includes technological studies that qualify in a school year for three or more credits toward the Secondary School Graduation Diploma; and
- (d) a program of grade 9 or 10 that is offered in an elementary school.

(2) Where the ratio of the average daily enrolment of elementary school pupils whose fees are receivable from another board or from Canada and who are registered in a high-cost program to the average daily enrolment of elementary school pupils whose fees are receivable from the other board or from Canada, as the case may be, is greater than the ratio of the average daily enrolment of elementary school pupils registered in such high-cost program to the average daily enrolment of elementary school pupils registered at the schools of the board that provides the instruction, the fee for a pupil registered in a high-cost program, as determined by dividing the fees receivable in respect of elementary school pupils from the other board or from Canada, as the case may be, under section 2 by the average daily enrolment of such pupils, may be multiplied by a factor to be agreed upon between the board that provides the instruction and the board from which or the party from whom the fee is receivable except that, in the case of a pupil registered in a program referred to in clause *d* of subsection 1, the factor shall not be greater than 1.125.

(3) Subsection 2 applies, with necessary modifications, to secondary school pupils.

(4) Where a pupil to whom section 4 or 5 applies is registered in a high-cost program, the maximum fees payable in respect of such pupil shall be determined by multiplying the maximum fees under section 4 or 5, as the case may be, by a factor to be agreed upon between the board that provides the instruction and the party from whom the fees are receivable.

(5) Where under this section the board that provides the instruction and the other board or party concerned cannot agree upon a factor, the factor shall be determined by three arbitrators, one arbitrator appointed by the board that provides the instruction, one arbitrator appointed by the board from which or the party from whom the fee is receivable and one arbitrator appointed by the Minister, and the decision of the arbitrators or a majority of them is final and binding upon the board that provides the instruction and the other board or party concerned.

7. Where a board, except a board appointed under section 68 of the Act, provides an education program in a hospital or treatment centre that is not referred to in section 27 of Ontario Regulation 108/79, the fee payable in respect of a pupil who is

not qualified to be a resident pupil of the board and for whom such an education program is provided shall be such as may be agreed upon between the board that provides the program and the parent or guardian of the pupil or the board of which the pupil is qualified to be a resident pupil.

8. This Regulation applies to fees for pupils in respect of the year 1979.

Special Announcement

The Government of Ontario has instituted a program making certain Statutes and Regulations available in the French language. This is a long-term, on-going undertaking and the first translated statutes are expected to be ready for distribution early in April, 1979. These statutes are: The Ministry of Northern Affairs Act, 1977, The Compensation for Victims of Crime Act, 1971 and The Human Tissue Gift Act, 1971. Additional translations will be listed in both our Monthly Checklist and French Catalogue as they become available.

Le Gouvernement de la Province d'Ontario a mis sur pied un programme qui assurera la traduction en langue française d'un certain nombre de lois statutaires et de règlements. Il s'agit d'une initiative à long terme et les premières traductions de lois statutaires devraient être prêtes à être distribuées au début du mois d'avril 1979. Ces lois sont la Loi de 1977 sur le ministère des Affaires du Nord, la Loi de 1971 sur la compensation des victimes d'actes criminels et la Loi de 1971 sur le don de tissus humains. D'autres traductions seront ajoutées à la fois à la liste mensuelle de contrôle et à notre catalogue français à mesure qu'elles seront disponibles.

Special Announcement

The Government of Ontario has instituted a program making certain Statutes and Regulations available in the French language. This is a long-term, on-going undertaking and the first translated statutes are expected to be ready for distribution early in April, 1979. These statutes are: The Ministry of Northern Affairs Act, 1977, The Compensation for Victims of Crime Act, 1971 and The Human Tissue Gift Act, 1971. Additional translations will be listed in both our Monthly Checklist and French Catalogue as they become available.

Le Gouvernement de la Province d'Ontario a mis sur pied un programme qui assurera la traduction en langue française d'un certain nombre de lois statutaires et de règlements. Il s'agit d'une initiative à long terme et les premières traductions de lois statutaires devraient être prêtes à être distribuées au début du mois d'avril 1979. Ces lois sont la Loi de 1977 sur le ministère des Affaires du Nord, la Loi de 1971 sur la compensation des victimes d'actes criminels et la Loi de 1971 sur le don de tissus humains. D'autres traductions seront ajoutées à la fois à la liste mensuelle de contrôle et à notre catalogue français à mesure qu'elles seront disponibles.

Schedule 15

SCHEDULE OF BENEFITS

PREAMBLE**A. General**

1. The rates listed in this Schedule of Benefits are the maximum payments which can be made by the Ontario Health Insurance Plan.

2. Insured medical services are limited to the services which are medically necessary, which are listed in this Schedule of Benefits and which are not specifically excluded by legislation or regulation (see Appendix A for a list of specific exclusions).

3. Additions, deletions or other modifications of the Schedule of Benefits require recommendation by the Ontario Health Insurance Plan. Such recommendations are made in consultation with the Ontario Medical Association.

4. This Schedule is a public document and frank discussion with patients regarding the listed rates is recommended.

5. Services not listed in the Schedule or which are listed as N.A.B. (not a benefit) or which are excluded as benefits by legislation or regulation, may be charged directly to patients or others requesting these services.

6. The principles governing proper professional charges are incorporated in the Regulations (Medicine) of the Health Disciplines Act.

7. Each physician who participates in the care of a patient is entitled to compensation commensurate with the services he renders.

8. Whenever possible, the physician should acquaint the patient or person financially responsible with his obligations to those concerned with his care. This is particularly important where supportive or concurrent care is rendered or when a consultation and/or procedure are being arranged.

9. Each physician participating in the care of a patient should render to the patient, or to the financially responsible party, an itemized statement of charges for professional services.

10. Each physician participating in the care of a patient should, on request, send a receipt to the patient for all payments made by him.

11. If fees are collected by an organized group, the name of the physician rendering the service should be clearly shown on the bill or claim card.

PREAMBLE

12. Claims may be submitted for services which a patient receives from the team of staff man, resident, intern and clerk in a teaching unit, provided that the conditions as set out hereunder apply.

On October 10, 1972, the Minister of Health confirmed that the joint recommendations of the College and the O.M.A. governing the charging of fees for services provided by interns and residents in clinical teaching units are acceptable to the Ministry of Health. In his letter the Minister made it very clear that he is looking to the College and the Medical Schools to ensure that the ethical rules governing these billing procedures are followed meticulously in all cases.

It has been carefully explained that the responsible staff man must be present in the clinical teaching unit at the time the services are rendered and must be identified to the patient at the earliest possible moment. No fees are to be charged for services given by the intern or resident prior to this identification taking place. The following rules are now in effect: —

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient. His relationship to the team shall be defined by the clinical teaching unit Director and his role must be known to the patient and other members of the team. He shall assume full responsibility for the appropriateness and the quality of the services rendered.

Specific regulations must vary with the service and form of care being delivered: —

- (a) In order to claim for physical procedures being carried out by an intern or resident, the responsible staff man must be in the clinical teaching unit and immediately available to intervene.
- (b) In psychotherapy where the presence of the staff man would distort the psychotherapy milieu, it is appropriate for the staff man to claim for psychotherapy when a record of the interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff man may not exceed the total time spent by him in both such interview review and in direct supervision.
- (c) In other departments or services, the staff man should only claim for visits on the days when actual supervision of that patient's care takes place through the presence of that staff man in the clinical teaching unit on that day. This, of course, involves a physical visit to the patient and/or a chart review with detailed discussion with the other member(s) of the health team.
- (d) In those situations where on a regular basis a staff member might supervise concurrently multiple procedures or services through the use of other members of the team, the total claims made by the staff man shall not exceed the amount that the staff man might make in the absence of the other members of the team.

Any claim rendered should be in the name of the responsible staff man.

13. Charges for missed appointments are not benefits of O.H.I.P.

PREAMBLE

B. Terms and Definitions

1. This schedule lists a code number opposite most items. Items which are not coded are identified either as U.V.C. or N.C.

U.V.C. — use visit codes applicable to the pertinent service and specialty.

N.C. — no code applicable. This service is not a benefit (N.A.B.) of O.H.I.P., and may be charged directly to patients.

For the surgery portion of this schedule, physicians submitting claims in coded form should add to the code numbers, the suffix A if they perform the procedure, the suffix B if they have assisted at the surgery or the suffix C if they have administered the anaesthetic.

For those diagnostic and/or therapeutic procedures which have the technical and professional components listed separately, but under the same code, the suffix A should be added to the code numbers when both components are being claimed, the suffix B when only the technical component is being claimed, or the suffix C when only the professional component is being claimed.

Where separate codes are listed for the technical or the professional components, the suffix A should be used.

For diagnostic radiology, only one code is listed for each service, even though some of these services may be provided by non-certified radiologists. The code for services rendered by non-certified radiologists should be obtained by increasing the first digit in the listed codes by 5. Thus, for example, the code for the service listed as X001 but rendered by a non-certified radiologist would be X501 plus the appropriate suffix.

2. **Call or Visit:** is the service by a physician to or on behalf of a patient for assessment and/or treatment.
- (a) **Office Visit:** may be for a consultation, repeat consultation, limited consultation, general or specific assessment or re-assessment, intermediate or minor assessment rendered in the physician's office.
- (b) **Home Visit:** is a visit rendered to a patient in the patient's home. The services rendered may include any service, e.g. consultation, assessment or procedure, of the type normally done in a physician's office. The surcharges for emergency call with sacrifice of office hours and for Nights, Saturdays, Sundays and Holidays, when indicated, are only to be claimed for the first patient seen during each home visit.

A visit rendered to a patient in a rest home, lodge, detoxification centre, half-way house, or other institution not covered elsewhere in the Schedule, may be claimed as a home visit. Additional patients assessed and/or treated during that visit should be claimed as "extra patients seen".

- (c) **Special Visit to the Office or Hospital:** is a visit rendered to the first patient seen following arrival at the office (outside normal office hours) or hospital. The services rendered may include any service, e.g. consultation, assessment or procedure. The benefit for a Special Visit to the Office (outside normal office

PREAMBLE

hours) applies whether or not the office is in the physician's home. The surcharges for Emergency call with sacrifice of office hours or for Nights, Saturdays, Sundays and Holidays, when indicated, are only to be claimed for the first patient seen in each special visit. When additional patients are seen in the office under these circumstances, the appropriate office visit should be claimed for these patients. When additional patients are seen in the emergency or outpatient department under these circumstances, the appropriate benefit under "Emergency or O.P.D. — Physician in Hospital But Not on Duty in the Emergency Department When Seeing Patient(s) in the Emergency or O.P.D." may be claimed. When additional patients are seen in the hospital under these circumstances, the appropriate benefits under "Hospital" may be claimed. When a physician makes a special trip to the emergency department to see a patient and also admits the patient to hospital during the same visit, he may claim the special visit benefit of \$14.65 or \$21.65, depending on the time of day, plus the appropriate hospital visit benefit which may be \$5.55 (subsequent hospital visit) or \$13.95 (a general re-assessment). When a specialist provides the same services at the request of another physician, the total claim should be the consultation benefit plus, if applicable, \$7.00 for a special visit at Night, on Saturdays, Sundays or Holidays. In such cases no claim may be made for an assessment on admission to hospital as well as the consultation.

When services are rendered on an emergency basis at a site other than listed in this schedule (e.g. roadside, ski slope, etc.), benefits are applicable at the Special Visit to the Office rates for the first patient seen and at the regular office rates for services rendered to additional patients.

If a physician is called to pronounce a patient dead, a home or special visit (minor assessment) may be claimed.

- (d) **Nights, Saturdays, Sundays and Holidays:** an extra \$7.00 may be claimed in addition to the appropriate Home Visit or Special Visit to the Office or Hospital when the calls are received and made between the hours of 6:00 p.m. and 8:00 a.m. or on Saturdays, Sundays and Holidays. Only one such claim may be rendered per Home or Special Visit to the Office or Hospital. The surcharge does not apply to visits on regular rounds but rather applies to situations when a physician is called to the hospital and makes a special trip to see a patient. For procedures rendered on an emergency basis (excluding non-referred or transferred obstetrics but including Caesarian sections) commencing after 6:00 p.m. and before 7:00 a.m. or on Saturdays, Sundays and Holidays, the listed procedural benefit may be increased by 15% or \$7.00, whichever is greater when no other premium applies (code **E409**). E409 may not be claimed for non-emergency procedures or for procedures which mainly involve the interpretation of test results, and it is not applicable to procedures in Diagnostic Radiology, Nuclear Medicine or Diagnostic Ultrasound.
- (e) **Holidays:** are defined for the purpose of this schedule as New Year's Day, Good Friday, Easter Monday, Victoria Day, Dominion Day, Civic Holiday, Labour Day, Thanksgiving, Remembrance Day, Christmas Day and Boxing Day. With the exception of Remembrance Day, if any of these holidays fall on a Saturday or Sunday, at the physician's discretion either the Friday before or, the Monday following will be recognized as the holiday.

PREAMBLE

- (f) **Emergency Call:** is a call made in a situation (excluding non-referred or transferred obstetrics) where the demands of the patient and/or the physician's interpretation of the patient's condition is such that the physician responds immediately at the sacrifice of regular office hours. Only one \$7.00 claim may be made per home, hospital or special visit for sacrifice of office hours, and may not be claimed if a claim also is made for the Night, Saturday, Sunday or Holiday surcharge.
- (g) **Hospital Visit:** is a visit to a registered bed patient. When the patient has not been seen previously by the physician in charge, the first visit after admission may be claimed as a consultation or general or specific assessment if appropriate. Where the patient has been previously attended before admission, the first visit after admission may be claimed as a general reassessment or specific reassessment if the patient has been seen before in the same illness, depending on the specialty. (Such assessments or reassessments are considered to be the hospital "admission assessment" and may not be claimed more than once during a hospital admission.) Subsequent routine visits should be claimed at hospital visit rates. Special hospital visits should be claimed under Special Visits to Hospital. Claims for daily hospital visits must not be made unless a physician actually visits the patient each day.

Prior to the weekly and monthly limitations that apply after a patient has been in hospital for 5 weeks (6 weeks for paediatricians), payments for hospital visits generally are limited to one per patient per day. For acute illnesses or exacerbation of original illness requiring additional visits before or after 5 weeks of hospitalization, claims for extra visits should be made on an independent consideration basis.

When a patient in hospital is referred by one physician to another, the second physician will not be limited by the Subsequent Hospital Visit formula for the number of hospital visits already rendered by the first physician. In other words, the second physician is entitled to claim for his visits up to five weeks just as if the patient was being attended to in hospital for the first time. However, if the patient is transferred to the care of another physician, the Subsequent Hospital Visit formula would apply just as it would if only one physician was involved in the care.

- (h) **Outpatient or Emergency Room Visit:** is a visit to a patient who is not a registered bed patient. If the visit requires a special trip by the physician, he may claim for his services under the listings for Special Visit to the Hospital. If the physician is already in the hospital and sees the patient in the Emergency or O.P.D. he should claim for his services under the listings for Emergency or O.P.D. — Physician in Hospital But Not on Duty When Seeing Patient(s) in the Emergency or O.P.D. If a consultant is in the hospital and is requested by a physician on duty in the emergency department to see a patient in consultation, the consultant may claim a consultation fee for this service. If the consultant is requested to perform this same service by a resident or intern, the consultant may claim a general or specific assessment fee according to his specialty. A physician on duty in the Emergency Department regardless of his specialty should submit claims under the heading Emergency Department — Physician on Duty.

Physicians seeing patients in organized out patient departments should claim under the heading "Emergency or O.P.D. — Physician in Hospital But Not on Duty in the Emergency Department When Seeing Patient(s) in the Emergency or O.P.D." (H prefix codes). This heading also should be used when a physician requests a patient to see him in the emergency department instead of his office (if the visit is for a procedure only, see paragraph 12).

PREAMBLE

3. Consultations:

- (a) A consultation refers to the situation where a physician, in light of his professional knowledge of the patient, requests the opinion of another physician competent to give advice in this field, because of the complexity, obscurity or seriousness of the case or because another opinion is requested by the patient or an authorized person acting on his behalf. The consultant is obliged to perform a general or specific assessment, review the laboratory and/or other data and submit his findings, opinions and recommendations in writing to the referring physician.
- (b) For laboratory and procedural benefits connected with consultations, see listings of Laboratory Medicine and Diagnostic and Therapeutic Procedures,
- (c) A consultation is not to be claimed as such when:
 - (i) The patient presents himself to a consultant's office without prior knowledge of the primary physician. The sending of a report to the primary physician under these circumstances does not justify a claim for a consultation.
 - (ii) The primary physician is not asked for professional advice but is simply asked by the patient for the name of a specialist in a particular field and the patient seeks out the specialist himself.
- (d) A repeat consultation requires all of the criteria of a full consultation and implies interval care by the primary physician. The situation in which the consultant requests the patient to return for a later examination is not a repeat consultation.
- (e) A limited consultation may involve all of the components of a full consultation but is less demanding, and in terms of time, normally requires substantially less of the physician's time than the full consultation.
- (f) A diagnostic radiology consultation applies when radiographs made elsewhere are referred to a radiologist for his written opinion or when a radiologist is required to make a special visit at Night, Saturdays, Sundays and Holidays to consult on the advisability of performing a diagnostic radiological procedure which eventually is not done. A consultation does not apply when the radiographs referred to above are used for comparison purposes with radiographs made in the consultant's facilities.
- (g) A diagnostic pathology consultation applies when tissue slides are referred to a second pathologist for a written opinion. It includes secretarial or other assistance and does not apply when the tissue slides referred to above are used for comparison with tissue slides done in the consultant's facilities. When a diagnostic pathology consultation fee is claimed L821 may not also be claimed.
- (h) A pathology consultation or repeat consultation applies when a pathologist is requested to examine a patient and provide a written opinion.
- (i) A diagnostic nuclear medicine consultation applies when nuclear medicine studies are referred to a nuclear medicine specialist for a written opinion. It includes secretarial assistance and does not apply when the studies referred to above are used for comparison with studies done in the consultant's facilities.

PREAMBLE

- (j) A nuclear medicine consultation or repeat consultation applies when a nuclear medicine specialist is requested to examine a patient and provide a written opinion, all of which takes a greater amount of time and effort than a nuclear medicine study would normally require. It may or may not be followed by a nuclear medicine study but if so, the lesser professional benefit (P₂) rather than the greater benefit (P₁) should be claimed in addition to the technical (T) benefit.
- (k) Some nuclear medicine specialists have other specialist qualifications which allow them to claim other consultation benefits (e.g., internal medicine). A nuclear medicine consultation or repeat consultation may be claimed in lieu of another consultation (e.g., internal medicine) but would not be combined with a claim for such a consultation by the same consultant.
- (l) A prenatal consultation by a paediatrician applies when a physician considers a foetus of greater than 20 weeks gestation to be at risk or in jeopardy by reason of continuation of pregnancy in the presence of maternal and/or foetal distress, and requests the opinion of a paediatrician competent to give advice in this field. The paediatrician shall perform a general or specific assessment, review laboratory and other data and submit his findings and recommendations in writing to the referring physician. Such a consultation does not preclude the paediatrician from a post-natal consultation on the infant.

4. **General Assessment:** shall comprise a full history, an enquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient.*

5. **General Re-Assessment:** shall comprise the same services as a general assessment except that the history need not include all the detail already obtained in the original general assessment.*

6. **Specific Assessment:** shall comprise a full history of the presenting complaint, enquiry concerning, and detailed examination of the affected part, region or system, as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.*

7. **Specific Re-Assessment:** shall comprise a full relevant history and a comprehensive physical examination of one or more systems but not requiring an evaluation of the patient as a whole. *Specific re-assessments in the medical specialties apply in the management and assessment of the progress of serious chronic disease and are not to be claimed for treating minor conditions or solely for following the progress of treatment. If a surgical specialist performs a second specific assessment on a patient within a year's time and the diagnosis is the same, the physician should claim for this second service on the basis of a specific re-assessment.

8. **Intermediate Assessment:** is a more extensive assessment than a minor assessment and shall comprise a full history of the presenting complaint, enquiry concerning and examination of the affected part(s), region(s), or system(s) as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.*

*For laboratory and other investigation performed in conjunction with a visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

9. **Minor Assessment:** shall comprise the necessary history, an enquiry concerning and the necessary examination of the affected part or region, an appropriate record and advice to the patient when the physician is consulted for a relatively minor condition or for subsequent visits solely for following the progress of treatment.*

10. **Admission Assessments (to Long Term Care Institutions):**

Type 1 — applies when (a) no medical history has been provided to the admitting physician, (b) the admitting physician takes the history of past and present illness, carries out a general assessment and provides a report for the medical record.

Type 2 — applies when (a) the report of the history and examination has been written by another physician, (b) the admitting physician reviews the report and decides it is necessary to repeat the history and general assessment and provides a report for the medical record.

Type 3 — applies when (a) there is a report of the history and general assessment made by the same (as the admitting) physician prior to admission or, (b) when the admitting physician writes an admission note describing the condition of the resident following admission.

11. **Documentation:** whenever a physician examines or treats a patient, an appropriate record of this service must be made and such record must be in keeping with section 28 of Regulation 577/75 of the Health Disciplines Act, 1974 (see Appendix B).

12. **Visit for Procedure:** when the sole reason for an office visit is the performance of a certain procedure, the listed benefit for the procedure will apply. (See Diagnostic and Therapeutic Procedures Preamble for exceptions.) When procedures are carried out in the office, emergency or outpatient department on an elective basis, a special visit should not be claimed in addition to the procedural fee. When procedure(s) are carried out under the direct supervision of the physician, the usual claims may be made for procedure(s) which are generally and historically accepted as those which may be carried out by the nurse or other medical assistant.

13. **Annual Health or Annual Physical Examination** (Including Primary and Secondary School Examinations): shall comprise all the elements of a general assessment as it pertains to an individual who presents and reveals no apparent physical or mental illness. O.H.I.P. benefits are limited to one Annual Health Examination per patient per year after the sixth birthdate. To qualify for O.H.I.P. benefits, an Annual Health Examination normally must be requested by the patient rather than a third party. Under Regulation 323 of The Health Insurance Act, 1972, examinations for the purpose of "legal requirements or proceedings" are excluded from coverage. However, it is recognized that an Annual Health Examination will satisfy some or all of the requirements for examinations required by statute but excluded by the above mentioned Regulation. In such instances and where a prior claim for an Annual Health Examination has not been submitted to the Plan in the previous twelve months for that patient, it would be appropriate to submit a claim to OHIP for this service. The OHIP benefit in these cases covers the Annual Health Examination only and not any charges peculiar to the legal requirements, such as charges for the completion of forms.

*For laboratory and other investigation performed in conjunction with a visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

14. **Newborn Care:** is the routine care of a well baby up to ten days of age and should include a complete physical examination of the baby and necessary instructions to the mother. The service shall involve at least two visits, and may not be claimed for the same patient by more than one physician.

15. **Low Birth Weight Care:** is the care of a baby weighing less than 2.5 kilograms at birth.

16. **Well Baby Care:** the periodic visits of a well baby during the first two years of life involving complete examination with necessary weight and measurements, haemoglobin and urinalysis (when indicated), necessary immunizations and instructions to the parent(s) regarding health care. O.H.I.P. benefits are limited to ten such visits.

17. **Well Child Care:** is the routine care of a well child between the second and sixth birthdays including necessary immunizations and instructions to the parent(s) regarding health care. O.H.I.P. benefits are limited to one such visit per year.

18. **Most Responsible Physician:** is the attending physician who is primarily responsible for the day to day care of the patient in hospital. In cases of unusual severity where the consultant assumes the role of the most responsible physician, the consultant may claim on a per visit basis and the family physician may claim supportive care. Where the family physician remains the most responsible physician and requests only a consultation, the family physician may claim on a per visit basis and the consultant may claim for a consultation only.

19. Transferral and Referral:

(a) A referral takes place when one physician or surgeon requests for his patient the services of another. The services of the latter may consist of:

- (i) an opinion (i.e. a consultation)
- (ii) diagnostic tests or procedures (e.g. skin test, biopsy, etc.)

Note: In such cases the referring physician continues to treat the case himself.

- (iii) treatment (surgical or medical).

The referring physician's O.H.I.P. registration number must be included on the claim submission.

- (b) A transferral, as distinguished from a referral, takes place where the responsibility for the care of the patient is completely transferred permanently or temporarily, from one physician to another in the same field or specialty (e.g. where the first physician is leaving temporarily on holidays and unable to continue to treat the case). In such cases, the physician to whom the patient is transferred is not entitled to claim for a consultation. Physicians who are substituting for other physicians should consider that patients of the latter have been temporarily transferred (not referred) to their care. Where the care of the patient involves a benefit containing several components such as for surgery or obstetrics the physicians may consider the surgical or obstetrical benefit a team benefit and decide among themselves how each is to be compensated; traditionally physicians in these circumstances have reciprocated by exchanges of coverage for each other. When physicians routinely or frequently substitute for each other providing hospital visits to registered bed patients in active treatment hospitals, e.g. weekend coverage or daily rounds by various members of a group, the most responsible physician may claim for all the visits.

PREAMBLE

20. **Concurrent Care:** is where the family physician remains the most responsible physician but because of the seriousness or complexity of the condition, requests continued directive care by a consultant, the family physician may claim on a per visit basis and the consultant may claim for one visit every two days for the first week and then one visit every four days while the patient's condition remains serious — this arrangement being agreeable to both physicians.

21. **Multidisciplinary Care:** is where the complexity of the medical condition requires the services of several physicians in different disciplines. In such cases, each physician should render a separate claim on a per visit basis. This does not refer to a situation where a single benefit for a team of physicians is listed in the Schedule.

22. **Supportive Care:** is the care rendered in hospital by the referring physician, who is not actively treating the case (e.g. writing orders), to a patient under the care of another physician, at the desire of the patient or family, for purposes of liaison or reassurance. The physician may claim for this care on a per visit basis. It is reasonable to assume that one visit every two days to the seventh day and then one visit every four days thereafter will be sufficient. If medical complications develop or are present in the post-operative period which require active management by the referring physician, claims for hospital medical care should be rendered, not supportive post-operative care.

23. **Psychotherapy:** is any form of treatment for mental illness, behavioural maladaptations, and/or other problems that are assumed to be of an emotional nature, in which a physician deliberately established a professional relationship with a patient for the purposes of removing, modifying or retarding existing symptoms or attenuating or reversing disturbed patterns of behaviour, and of promoting positive personality growth and development. Accordingly, therefore, a psychotherapeutic procedure may be claimed for if a half hour or major part thereof has been spent in such treatment of the patient. Psychotherapy may not be claimed by more than one physician for the same patient at the same time.

Please note that the College of Physicians and Surgeons of Ontario has stated that "in order to qualify for a psychotherapy claim, a minimum of twenty minutes must be spent with the patient. When psychotherapy extends beyond thirty minutes, the major part of the next half hour must be spent with the patient to qualify for an additional half hour fee. Similarly, after an hour of psychotherapy, the major part of the next half hour must be spent to qualify for an additional half hour fee and so on." (Medical Review Committee Bulletin, Volume 3, Number 1.)

24. **Counselling:** as distinct from psychotherapy, counselling is that activity in which the physician engages in an educational dialogue with the patient(s) on an individual or group basis wherein the goal of the physician and patient(s) is to become aware of the patient's problems or situation and of modalities for prevention and/or treatment. Counselling is not intended for ongoing treatment or as a substitute for a patient assessment, and it must be rendered personally by the attending physician.

PREAMBLE

25. Age: (unless otherwise specified)

Newborn — (see item 14 above)

Infant — up to 2 years

Child — up to and including 15 years

Adolescent — up to and including 17 years

Adult — 18 years or over.

26. Detention: benefits may be applicable for detention when under very exceptional circumstances a physician is required to spend considerable extra time with a patient. Such extra time must be required *at that time*, and it must be to the exclusion of all other work.

Claims for detention must be substantiated by an explanation on the claim card or in an accompanying letter, and should be made on an "I.C." basis according to the following guidelines:

\$9.05 per quarter hour or part thereof after the first twenty minutes provided that the first twenty minutes are spent in a minor or intermediate assessment or subsequent hospital visit.

\$9.05 per quarter hour or part thereof after the first forty minutes provided that the first forty minutes are spent in a specific or general re-assessment or multiple system assessment.

\$9.05 per quarter hour or part thereof after the first hour provided that the first hour is spent in consultation, limited consultation, repeat consultation, prenatal consultation, specific or general assessment.

Detention is not meant to apply to procedures and does not include time waiting for X-rays, lab reports, the operating room, or for the patient to arrive for assessment or treatment. Moreover, since the pertinent listed obstetrical benefits take attendance at labour into account, benefits for detention are not applicable during the first 18 hours of established labour. For the purpose of counting the hours in established labour, a physician should start counting either from the time he has been advised by the hospital that his patient is in active labour (which may be the time of hospital admission) or from the time that he has assessed the patient and found her to be in active labour. If established labour extends beyond 18 hours, a physician may claim detention for further time during labour spent with and on behalf of the obstetrical patient to the exclusion of other patient care.

27. Independent Consideration — "I.C.": independent consideration will be given by O.H.I.P. for those items in the Schedule of Benefits which are listed as I.C.. Claims rendered under this heading must include a specific charge along with a detailed explanation of that charge. Where pertinent, an operative report is very helpful in rendering independent consideration. It also is helpful if I.C. claims include a comparison of the scope and difficulty of the procedure with other procedures listed in the schedule.

28. Specialist: a specialist shall be defined (for purposes of application in the case of any given service within this Schedule) as one who holds a certificate from the Royal College of Physicians and Surgeons of Canada in the specialty which normally is considered to encompass the service in question.

A specialist rendering services outside of his specialty should use the codes and tariffs listed in the General Practice section of the Schedule.

PREAMBLE

29. Differential Benefits:

- (a) The rates listed under the column "Practice in General" are those intended to apply when the service is performed by other than a physician certified in the specialty normally considered to encompass the service in question.
- (b) Where only one benefit is listed, it shall apply to any physician rendering the service, regardless of specialty.
- (c) Consultation and visit benefit listings under the heading of General Practice may be claimed by other branches of medicine if the listings do not appear elsewhere in the Schedule.
- (d) Specialists in paediatrics who practice allergy may claim specialist rates for their allergy services regardless of the age of their patients.

30. Referring Physician's Services:

- (a) For the services rendered prior to an operation, the referring physician should claim on a "fee-for-service basis", for example:
 - (i) Home, Office or Hospital Visits as rendered.
 - (ii) In addition to (i) above, in acute cases, benefits may be claimed for detention if applicable and appropriate (refer to paragraph 26, above).
- (b)
 - (i) For services rendered as an assistant during the operation, the referring physician should claim in accordance with paragraph 31, below.
 - (ii) In cases in which the referring physician is required to be present in the interest of the patient but does not actually assist at the surgical procedure, he should charge on a per visit basis for this service.
- (c) For the services rendered after the operation, the referring physician may claim on the basis of supportive care as outlined in the Schedule.

31. Assistants' Services:

- (a) Time units are computed by allowing one unit (\$4.40) for each 15 minutes or part thereof of time (up to two hours) spent by the assistant. Time units for assistants' services for periods in excess of two hours per case are computed by allowing two units for each 15 minutes or part thereof. Time for purposes of these calculations includes scrub time and time spent in the operating room. If claims are being made in coded form (see Preamble, part B, paragraph 1), the suffix B should be added to the code for the procedure.
- (b) Time units and listed basic units should be indicated separately on the claim card. Benefits for assistants' services are determined by multiplying the listed basic units and the time units by \$4.40. For cases commencing after 6.00 p.m. and before 7.00 a.m. or on Saturdays, Sundays and Holidays, the total benefit for assistants' services is increased by 30% (E400B).

PREAMBLE

- (c) When multiple or bilateral surgical procedures are done during the same anaesthetic, the assistant's benefits shall be based on the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the assistant shall be entitled to receive full assistant's benefits for each procedure.
- (d) In surgical procedures requiring more than one assistant, benefits for the second assistant shall be computed on the same basis as for the first assistant.
- (e) When a surgeon requires an assistant at a procedure for which no assistant's units are listed, the assistant may calculate the total benefits applicable by taking the number of basic units used by the anaesthetist, adding his time units and multiplying the total number of units by \$4.40. (See also (f) below.)
- (f) When assistants at surgery claim for procedures for which no assistants' units have actually been listed in the Schedule, the assistants should support their claims with letters of explanation as to why their attendance was required.
- (g) Where the attendance of a physician is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care, and when the physician is in constant attendance, the benefits shall be based upon 3 units plus time (**E003B**).
- (h) When an anaesthetic has begun and the operation is cancelled due to a complication prior to commencement of surgery, the assistant who has scrubbed but is not required to do more, should claim 3 basic units plus time units (**E006B**). If the operation is cancelled after surgery has commenced, the procedural basic units plus time units will apply. If the procedure is cancelled prior to the induction of anaesthesia and the assistant is scrubbed, a subsequent hospital visit only may be claimed.

32. Anaesthetists' Services:

- (a) Benefits for anaesthetists' services are for all types of anaesthesia. The rates listed are for professional services, including pre-anaesthetic evaluation and post-anaesthetic follow-up and all immediate supportive measures, and does not include the cost of materials used. If an anaesthetist is asked to see a registered bed patient in consultation more than 36 hours prior to the administration of an anaesthetic, he may claim for a consultation as well as for rendering the anaesthetic. If an anaesthetist examines a patient prior to surgery and the surgery is cancelled prior to the induction of anaesthesia, he may claim a subsequent hospital visit for this service. When an anaesthetic has begun and the operation is cancelled due to a complication prior to the commencement of surgery, the anaesthetist should claim 4 basic units plus time (**E006C**). If the operation is cancelled after surgery has commenced, the procedural basic units plus time units will apply.

PREAMBLE

- (b) Basic units are listed for most procedures and include the value of all anaesthetic services except the actual time spent administering the anaesthesia, any modifying factors, or unusual detention with the patient (see paragraph 32(1) below).
- (c) Except during maintenance of continuous conduction anaesthesia (G247 pg 120, P015 pg 129), time units are computed by allowing one unit for each 15 minutes or part thereof of anaesthesia time (up to two hours). Following the first two hours of anaesthesia, with the exception of cases with basic units of 35, time units for periods in excess of two hours are computed by allowing two units for each 15 minutes or part thereof. Anaesthesia time begins when the anaesthetist is first in attendance with the patient for the purposes of creating the anaesthetic state and ends when he is no longer in personal attendance (when the patient may be safely placed under customary post-operative supervision).
- (d) Time units and listed basic units should be indicated separately on the claim card. Benefits for anaesthetists' services are determined by multiplying the basic and the time units by \$5.27 for certified anaesthetists and \$4.60 for non-certified anaesthetists. For cases commencing after 6.00 p.m. and before 8.00 a.m. or on Saturdays, Sundays and Holidays, the total benefit for anaesthetists' services is increased by 30% (**E400C**).
- (e) If claims are being made in coded form (see Preamble, part B, paragraph 1) the suffix C should be added to the code for the procedure.
- (f) In special cases where the services of more than one anaesthetist are deemed necessary in the interest of the patient the benefits shall be increased by 50% of that computed for the procedure; each anaesthetist to be entitled to one half of the total benefit.
- (g) When multiple or bilateral surgical procedures are done during the same anaesthetic, the anaesthetic benefits shall be based upon the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the anaesthetist shall be entitled to received full anaesthetic benefits for each procedure.
- (h) In procedures where no units are listed or with I.C., the basic units will be based upon those listed for a comparable procedure considering region and modifying conditions or techniques.
- (i) When a pump with or without an oxygenator and with or without hypothermia is employed in conjunction with an anaesthetic, the anaesthetic "Basic" will be 35 units; this replaces the listed basic units for the procedure. To compensate for variations in anaesthetic practice, special respiratory intensive care or detention for the purpose of intensive treatment of other types may be claimed separately under the appropriate headings.
- (j) An additional 10 units may be claimed when, in association with anaesthesia, "controlled hypotension" is carried out using any technique to deliberately lower and maintain the mean blood pressure at least 25% below the range of normal for that patient. The extra 10 units may be claimed under code **E004C**.

PREAMBLE

- (k) Where unusual detention with the patient before or after anaesthesia is essential for the safety and welfare of such patient, the necessary time will be valued on the same basis as indicated for the anaesthetic time.
- (l) For detention not associated with anaesthesia detention rates and criteria apply (see paragraph 26, above).
- (m) Where the attendance of the anaesthetist is requested by the patient's other medical attendants for the purpose of monitoring or special supportive care, and where the anaesthetist is in constant attendance the benefits shall be based upon 3 units plus time. If claims are coded, the code is **E003C**.
- (n) A physician, regardless of specialty, who is required to examine a patient in preparation for dental surgery under general anaesthesia may claim \$13.95 when he has seen the patient in the previous twelve months for a general assessment or \$19.50 if he has not seen the patient within the previous twelve months for a general assessment. If the examining physician also administers the anaesthetic only \$13.95 may be claimed in addition to the anaesthetic benefit, for the history and examination required by the hospital on admission.
- (o) No additional claim should be made for introducing a catheter for continuous conduction anaesthesia, i.e. above the basic of 5 units plus maintenance units to a maximum of 6 units plus the number of time units required for the obstetrical delivery.
- (p) When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only.
- (q) When hypothermia is used by the anaesthetist in procedures not specifically identified as requiring hypothermia, the basic value is 25 units. This basic value replaces the basic value listed in the Schedule for the procedure. When the basic value claimed is 25 units, the anaesthetic service may be claimed under code **E002C**.
- (r) Where one anaesthetist starts a procedure and is replaced by another part way through a surgical procedure or delivery, the first anaesthetist should claim the appropriate basic units plus time units and the second anaesthetist may claim for time units only. The second anaesthetist should use code **E005C** for such time units except in the case of continuous conduction anaesthesia for which code G247 or code P015 (plus E100C) pertain (see also paragraphs 32(c) and 32(o), above). E005C qualifies for the surcharge E400C only if the case originally stated within the time stated under paragraph 32(d) above. Each anaesthetist should state on his claim card which part of the anaesthetic is being claimed and the time begun and completed.
- (s) General anaesthesia for the purposes of this Schedule includes all forms of anaesthesia except local infiltration.

PREAMBLE

Team Management in a Rehabilitation Unit: (Active in-patient rehabilitation management from the initiation of rehabilitation care as it applies to codes H312, H317 and H319 means, when this service is rendered by one physiatrist (even if part of the service is rendered in an active treatment hospital and part is rendered in a rehabilitation unit), the weekly and monthly limitations under these codes apply to the total rehabilitation care rendered. In other words, it is not possible to claim the maximum benefits allowed under codes C312, C317 and C319 and submit claims de novo under codes H312, H317 and H319 under the above circumstances.)

PREAMBLE:

1. The patient documentation and specimen handling benefit is applicable to all patients, except for those items listed under the anatomical pathology, histology and cytology sections. The items in this section have been left at a sufficient level to cover administrative costs. This benefit is not applicable to referred-in samples, since the collecting laboratory will already have claimed the patient documentation and specimen collection benefit.
2. The biochemistry section has been condensed so that one listing refers to a procedure for any of amniotic fluid (A), blood (B), C.S.F. (C), faeces (F), gastrointestinal fluid (G), urine (U). Exceptions are indicated by B, U, etc., following the test name. Other specimens will be considered on an I.C. basis.
3. A number of tests are listed in different sections of the schedule, i.e. when more than one method of performing the test is available, e.g. Hepatitis B antigen is listed under both Radioassays and Immunology.
4. Urine — dipstick chemical estimations are a modern and acceptable part of a routine and microscopic urine analysis (L253) or as a single part (such as Ketones, blood or protein, etc.) or in a glucose tolerance test (L254).

Note: The glucose tolerance test (G.T.T.) is not listed in this Schedule. Therefore, when requesting a laboratory to perform a glucose tolerance test, the physician should specify the number and frequency of blood sugar determinations and urinalyses desired. Ketones should not be routinely claimed with G.T.T.

5. Blood glucose by the dipstick method may be claimed only when assessed by an appropriate instrument such as a reflectance meter. It should not be claimed when used only as a check on the fasting blood sample of a glucose tolerance test. The blood glucose of the fasting sample in a glucose tolerance test is allowable only once even if assessed by two methods.
6. Code L418 may not be claimed if a haemoglobin is carried out in the course of any visit. However, Code G481 (see page 110) may be claimed if a haemoglobin screen (any method or instrument) is carried out in the course of an office or home visit (except for routine obstetrical care). (See also Preamble, part B, paragraph 2.) Urinalysis may be claimed with or without an associated visit to a physician's office if the analysis is comparable to code L253 and includes microscopic examination of the centrifuged specimen.
7. The RAST test has not been recognized in the schedule and it is inappropriate to claim for this service under code L585.
8. When a screening culture method (e.g. Agar spoon) is used on urine sample, L641 refers to a culture technique and does not apply to those kits using the nitrite test only. Where a significant growth is obtained and followed up by definitive identification methods, L633 or L634 only should be claimed.

LABORATORY MEDICINE

9. The Physician assumes responsibility for all cytology smears and the listed professional benefits (L804 to L815 inclusive) are weighted averages of the professional component. These benefits, therefore, are applicable in each case whether or not all slides are examined by the physician.
10. Only those tests which are requested are to be claimed with the following exceptions. It is intended that if the test results yield abnormal findings or information which would be incomplete, insufficient or meaningless to the referring physician, the medical director of a laboratory may add further appropriate tests and claim for them with the knowledge he may have to substantiate their justification.
11. The verbatim listing is intended as the definitive benefit for that test alone, unless otherwise specified e.g. isoenzymes do not include total enzyme estimation; creatine does include creatinine (as specified). Notwithstanding the foregoing and recognizing that it is impossible to list all variations in techniques of all listed tests, when there is a modification of the usual technique, the listing most closely approximating it should be used.
12. This schedule, with the exception of L036, lists actual procedures performed. No claim shall be made for calculated values made and reported.
13. Whereas the red cell count had fallen into disrepute and was rarely used before the advent of particle counters, and since they are considered valid only when counted by such an instrument, the manual red cell count done by the counting chamber is no longer approved and has been removed from the schedule.
14. Because of obsolescence and/or lack of utilization, L028 (Bence Jones Protein heat test) and L138 (Iodine, Butanol Extractable) have been removed from the schedule.
15. The benefit for seminal fluid examination (complete) is to include sperm count, volume estimation, motility and morphology and viscosity. The benefit of \$2.576 for seminal fluid examination carried out post-vasectomy is not to be claimed by the operating surgeon unless the patient requires more than one office visit post-operatively.
16. Creatinine is a justifiable addition in the case of tests on 24-hour urine samples, where it is necessary to assess the sample as a complete 24-hour collection. However, if several tests (e.g. steroids) are done on a single such sample, only one creatinine should be claimed for that sample. In those estimations where the test result is expressed in terms of creatinine excretion (i.e. a certain quantity per m.g. of creatinine) the performance of a creatinine is mandatory and may be claimed.
17. It is recognized that in requests for a serologic titre, if a screening test is used and would suffice, the lesser benefit for the screening test should be claimed. If positive and followed by a serial titration, both the screening and titre fees may be claimed. If the titration is a micro technique using plates, it is the equivalent of a tube titre, the wells being miniature tubes.
18. It is recognized that when Wet Preparation (L653) has been used to search for trichomonas, it may be claimed in addition to L625 or L627 provided that the

LABORATORY MEDICINE

conditions set down in paragraph 10 of this preamble are adhered to. The wet preparation used in the faeces concentration technique for parasites and ova is included in L650.

- 19. It is recognized that in all laboratory tests there is a professional component.
- 20. If a test is not completed in accordance with the specific schedule listing, no claim should be made for the test.
- 21. The maximum number of units which can be claimed for any combination of L418 (Hemoglobin), L417 (Hematocrit), L399 (WBC Count) and L397 (RBC Count) is 11 units, whether automated, semi-automated or manual methods are used. L700 is not included in this total and may be claimed separately, if appropriate. Code L470 has been deleted from this schedule. Laboratories using multichannel equipment and previously claiming under Code L470 should now use individual codes as described above.
- 22. For codes L475 - L478 inclusive, the unit of test measurement is "per panel". The panel consists of reagent blood cells of known antigenicity usually numbering 8-10 cell types per panel. For a 16 cell panel, the L.M.S. unit value should be doubled.
- 23. The use of Nickersons Medium as a screening test for yeast is not a benefit.
- 24. This preamble is intended to apply to everyone using codes L700, L001 to L722 and L800 to L826.
- 25. The benefits for patient documentation and specimen collection and each test are calculated by multiplying the individual L.M.S. Unit values by .368¢.
- 26. Laboratory tests on specimens sent outside Ontario are not a benefit of the Plan.

NUCLEAR MEDICINE — IN VIVO

Column T — is the technical benefit for the production of records, radiopharmaceutical agents, apparatus, premises, technical services, administration and secretarial services.

Column P₁ — is the professional benefit for supervision of the procedure, appropriate patient interview and/or examination, correlation of related data, interpretation of results, and provision of a written report. The physician must be present for supervision of the procedure to the extent that he or she may intervene personally, if required.

Column P₂ — is the professional benefit for interpretation of results and provision of a written report. If the nuclear medicine specialist is not present, the lesser professional benefit (P₂) should be claimed.

Notes: (1) The total benefit is arrived at by adding T plus P₁ (first code listed, e.g. Z006) or by adding T plus P₂ (second code listed, e.g. Z925).

When coding the total benefit use suffix A

When coding the technical portion only use suffix B

When coding the professional portion only use suffix C.

(2) If quantification or data manipulation is carried out in addition to visual inspection of imaging studies, add 30% to the appropriate professional benefit. Such activity must add significant diagnostic information not available by inspection alone and does not include simple image enhancement techniques such as smoothing, background subtraction, etc. Recording of images on videotape for replay and production of images on the video display of a computer do not in themselves justify the additional benefit.

For services for which this additional 30% is appropriate the correct code prefix is Y instead of Z. For example for Arteriography plus data manipulation, the appropriate codes are Y006/Y925 instead of Z006/Z925.

The benefits for cardiac wall motion studies and calculation of ventricular ejection fraction (Z010 and Z012) already include an allowance for data manipulation and no additional benefit may be claimed.

(3) If examination of Brain, Lung, Liver or Spleen is limited to one view, the benefit (T and P₁ and P₂) is to be reduced by 30% (use codes Z036/Z957, Z041/Z935, Z080/Z990 respectively.).

(4) Repeat studies on the same day may be claimed only after exercise or drug intervention.

(5) The phrase “nuclear medicine specialist” should be interpreted as “nuclear medicine physician”, since not all physicians practising nuclear medicine are certified as specialists in this discipline by the Royal College of Physicians and Surgeons.

(6) See also Preamble, part B, paragraph 3(i), 3(j) and 3(k).

CLINICAL PROCEDURES ASSOCIATED
WITH DIAGNOSTIC NUCLEAR
MEDICINE PROCEDURES

Such procedural benefits are intended for the professional service of placing an instrument or introducing diagnostic radiopharmaceuticals. They are not intended to be used for simple subcutaneous, intramuscular or intravenous injection nor for oral administration. Rather than double listing the procedures and benefits in this part of the schedule, physicians are directed to the following reference points in the schedule.

- (a) Intravenous injection for peripheral venography-G376 or G379 on page 119.
- (b) Intra-articular injections-G370 on page 118.
- (c) Injection into CSF spaces or shunt apparatus-Z801, Z802 or Z821 on pages 235, 236, 238.
- (d) Arterial puncture — G479 on page 104.

NUCLEAR MEDICINE — IN VITRO (See Radioassays under Laboratory Medicine)

DIAGNOSTIC RADIOLOGY

Column T — The benefit for radiological examination including the production of radiographs, supplying of contrast media, apparatus, premises, technical services, administration and collection costs.

Column P — The benefit for consultation between radiologist and referring physician, fluoroscopy, interpretation of radiographs and fluoroscopic findings and supervision of x-ray services by a radiologist.

Notes and Interpretations:

1. Private offices and hospital outpatient departments will claim the sum of Columns T plus P.
2. Radiologists should use Column P as a guideline for negotiating remuneration with hospitals.
3. Benefits for clinical procedures related to x-ray examinations are listed in the following section, or under Diagnostic and Therapeutic or Surgical Procedures. "Clinical Procedures", in this context, are those by which contrast media are introduced, except oral or rectal administration for study of the alimentary tract, and intravenous injections, which are an integral part of the study, performed by the physician collecting the benefit for the procedure.
4. If less than the minimum number of views are performed, reduce listed benefits by 25% (this reduction applies to both technical and professional component). If more than the minimum number of views are performed, no further benefit is applicable unless specifically listed.
5. Only those views which are requested are to be claimed with the following exceptions. It is intended that if the requested views yield abnormal findings or information which in the opinion of the radiologist would be insufficient, governed by the needs of the patient and the requirements of the referring physician, the radiologist may add further views and claim for them (if listed) with the knowledge that he may have to substantiate their justification.
6. Claims for X-ray services, when referred by an Osteopath, Chiropodist or Chiropractor to a private X-ray facility are not benefits of O.H.I.P.
7. Claims for X-ray services, when referred by an Osteopath or Chiropractor to a hospital outpatient department are benefits.
8. Coding
 - When coding the total benefit use suffix A.
 - When coding the technical portion only use suffix B.
 - When coding the professional portion only use suffix C.
 - When coding claims from certified radiologists (33) use the listed codes (i.e. X001-X191) plus the appropriate suffix.
 - When coding claims from non-certified radiologists increase the first numerical digit in the listed codes by 5 (i.e. X501-X691) plus the appropriate suffix.

DIAGNOSTIC RADIOLOGY

9. When a radiologist is asked to x-ray one extremity only, no additional claim should be made for comparison x-rays initiated by the radiologist.

10. Nephrotomography is covered by the listings for intravenous pyelogram and planigram.

11. A stereo pair is to be counted as two views.

12. No extra claim should be made for rapid sequence I.V.P.

13. No additional claim is warranted for the use of the image intensifier in diagnostic radiology.

14. Fluoroscopy claims should not be submitted for any examination performed by the radiologist where "fluoroscopy" is generally regarded as an integral part of the examination, e.g. examinations of the G.I. tract, urinary tract, special procedures.

15. "Colon — air contrast" may be claimed when performed according to generally accepted criteria. The colon should be scrupulously prepared. Five to eight full size views of the abdomen should be obtained after fluoroscopically controlled introduction of air and barium.

16. "Oesophagus, stomach and duodenum, double contrast" presupposes the introduction of gas, the use of antifoam agent and a suitable barium mixture.

17. Abdomen and chest studies should not be routinely done and claimed in gastrointestinal examinations.

18. Three or more views of the chest should not be done routinely and claimed when a chest examination is requested.

19. Chest studies should not be routinely done and claimed in mammography cases.

20. Nasal bones or accessory nasal sinuses should not be routinely claimed in skull examination requests.

21. Abdomen and/or pelvis should not be routinely claimed in lumbar spine examination requests.

22. A survey film of the abdomen is a single view. The ordering of additional films should be left to the discretion of the radiologist who should determine which examination is adequate for a specific patient. Obviously, if progress of a long tube is being followed, a survey film is sufficient. If, however, an intestinal obstruction is being followed, a single film is usually inadequate.

23. Conventional films of the spine should not be routinely done and claimed before myelography. The necessity of having plain film studies of the spine prior to interpreting the myelographic studies is obvious. It is not essential, however, that these be done at the institution where the myelogram was done. If they had been done at an outside office, then it is a matter for the radiologist and the referring physician to have the films available. If they cannot be made available to the radiologist, it is an acceptable practice for him to do the

DIAGNOSTIC RADIOLOGY

required examination of these areas and to claim for them so that they may be available for interpretation along with the myelographic study.

24. Pharynx and oesophagus (cine or videotape) — X106 should not be claimed routinely with X108 and X109 but only when specifically indicated.

25. Lumbar or lumbosacral spine (X028, X205, X206) does not include the entire sacrum. However, an examination of the sacrum may be carried out and claimed only when specifically indicated.

These procedural benefits are intended to cover compensation for the professional service of placing an instrument and introducing contrast media (except oral or rectal administration for study of the alimentary tract). Injection of materials to enhance the effect of contrast media is included in the procedure benefits.

2. Radiological charges are additional: see similar entries under section on RADIOLOGY.

3. Where similar procedures are done for diagnostic physiological studies of non-radiological nature, e.g. cardiac catheterization or intra-arterial infusion, they are listed separately under Surgery or Diagnostic and Therapeutic Procedures. See Index.

DIAGNOSTIC AND THERAPEUTIC PROCEDURES

Code With a few exceptions specifically indicated below, the listed procedural benefits are for the procedures(s) alone.
Consultations or visits when such services are rendered, may be claimed in addition to the procedure(s).

G700 When a procedure(s) is the sole reason for a visit, add \$2.45 per patient visit for those procedures marked (+) regardless of the number of procedures carried out during that visit. However, if the visit is to a diagnostic facility controlled directly or indirectly by a physician who has examined and referred the patient to such a diagnostic facility on the same day, G700 may not be claimed under these circumstances.

Note: G700 is not payable to a hospital department.

Schedule Interpretations:

1. Except for routine obstetrical care, if in the course of an office or home visit (see Preamble, part B, paragraph 2), a haemoglobin screen (any method or instrument) is carried out, code G481 may be claimed for this service (see page 110). Urinalysis may be claimed with or without an associated visit to a physician's office, if the analysis is comparable to code L253 and includes microscopic examination of the centrifuged specimen.

2. Claims for apex cardiography and E.C.G. may be made when both services are rendered.

3. For the first minor teleradiotherapy procedure rendered to a patient, the physician may claim the appropriate consultation or assessment in addition to the procedure(s). On subsequent visits, only minor teleradiotherapy plus \$2.45 should be claimed unless additional procedures have been performed or unless there has been a complication or change to a totally unrelated diagnosis. In the first exception, minor teleradiotherapy plus the benefit(s) for additional procedures may be claimed. In the second exception, the appropriate assessment and minor teleradiotherapy may be charged.

4. If, in addition to the allergy injection, the patient requires an assessment only of his allergic condition, the physician may claim for code G212 only. However, if a patient presents for an allergy injection and has an acute infectious condition, albeit of the respiratory system, or some other unrelated condition which would have otherwise required a separate office visit, the physician is entitled to claim for the appropriate assessment as well as the injection.

5. The benefits for respiratory care on page 114 of the schedule under Physician-in-Charge apply per patient treated, i.e., while the physician-in-charge may change during the course of treatment, the benefit formula as set out should be used by the physicians involved as if there was only one physician-in-charge during the treatment program.

6. The \$4.15 benefit under Physical Medicine Therapeutic Procedures means one \$4.15 per hour, per patient regardless of the number of procedures carried out during the hour.

7. Multiple B.C.G. inoculations used for treatment of carcinoma are to be considered experimental and no claims should be made for this service.

DIAGNOSTIC AND THERAPEUTIC PROCEDURES

8. Some benefits for Diagnostic and Therapeutic Procedures have the technical and professional components listed separately. The technical component includes the salaries of support staff, equipment depreciation or lease costs and supplies. The professional component includes the clinical supervision of the diagnostic facility, interpretation of the test results and a written report.

OBSTETRICS

1. Obstetrical care includes a complete history and physical examination, routine prenatal visits with necessary hemoglobin estimation; care during labour up to 18 hours, (after 18 hrs. see Preamble, part B, paragraph 26) delivery, post partum care and post-natal office visit.

2. Ordinary immediate care of the newborn is included in the obstetrical benefit and, when the service is rendered, in the benefit for anaesthetist's services. When active resuscitation of the newborn is required by any physician, it may be claimed under codes G521, G522 (Life Threatening Emergency Situation). When this service is rendered by an anaesthetist during the administration of anaesthetic, the time claimed must be deducted from the total anaesthetic time.

3. Illnesses resulting from or associated with pregnancy or false labour requiring added home or hospital care should be claimed on a per visit basis.

4. When a pregnant patient visits her physician for a condition unrelated to her pregnancy and apart from her routine scheduled visits, the physician may claim appropriate visit benefits in addition to her obstetrical care.

5. An obstetrician who is called by the family physician at the time of delivery and performs only a minor part of the delivery, i.e., re-application of forceps, confirmation of position, should claim a consultation, only. However, if the obstetrician performs a major portion of the delivery, i.e., a forceps rotation, he should complete the delivery and claim \$129.05 (the consultation plus operative delivery benefit). In the first instance, the family physician may claim his regular delivery benefit but in the second instance, he should only claim the "attendance at labour and attendance at delivery" benefit.

6. If an uncomplicated obstetrical patient is transferred from a family physician to an obstetrician for confinement, no consultation or assessment should be claimed since this is not a referral. The listing for "Operative delivery-other than Caesarian section; consultation and procedure" applies to those circumstances where the primary physician requests a more qualified person to deliver the baby because of the complexity of the case.

7. Attendance at labour and attendance at delivery may be claimed when a physician refers an obstetrical patient to another physician for obstetrical care because of complications but does not apply when a patient is transferred for normal care.

OBSTETRICS

8. Medical induction or stimulation of labour should only be claimed when carried out for recognized obstetrical complications and does not qualify for detention except subsequent to 18 hours of established labour (see Preamble).

9. When a patient visits a physician for a diagnosis of pregnancy and subsequently attends another physician for full obstetrical care, up to two diagnostic visits may be allowed to the first physician without any reduction of the total benefit for the second physician. Where obstetrical care is divided by transferral between two physicians, the prenatal component of the benefits applicable to each physician shall be allowed on a "fee-for-service" basis provided that neither physician's claim individually exceeds the benefit for prenatal care.

10. When a physician provides newborn care and also performs a circumcision on the same newborn or infant, both services may be claimed even though the circumcision benefits normally include the pre- and post-operative care of the patient.

11. When an obstetrician routinely transfers all newborns to the care of a paediatrician, the latter should not claim consultation benefits for these "transferrals". If the baby is well, the paediatrician may claim the newborn care in hospital benefit of \$26.50 plus \$26.50 for code H267, attendance at maternal delivery (if this service is given). If the baby is sick, such paediatrician may claim for a general assessment and for attendance at maternal delivery (if this service is given) plus daily visits for as long as the paediatrician's services are required. If an obstetrician normally cares for newborns himself or transfers the care of newborns to a general or family physician but refers a perinate to a paediatrician because of the complexity, obscurity or seriousness of the case, the latter may claim for his services according to the following guidelines:

- (a) if a pre-natal consultation is performed, code C665 may be claimed on the mother's card (see Preamble, part B, paragraph 3(1)).
- (b) if attendance at maternal delivery is rendered, code H267 may be claimed and, if a general assessment of the baby is carried out, code C263 may be claimed as well. However a post-natal consultation on the baby (C265) may not be claimed in addition to H267.
- (c) If the paediatrician has not attended the delivery, a post-natal consultation may be claimed (if this service is rendered) even though a pre-natal consultation may already have been claimed.

12. When a physician provides prenatal care, attends at labour, assists or administers the anaesthetic at Caesarian Section and visits the patient post-operatively, he is entitled to claim for prenatal care, attendance at labour and attendance at delivery, assistant's or anaesthetist's benefits for Caesarian Section and supportive care while the patient is in hospital.

13. The Preamble applicable to Surgical Procedures (pages 133-139) also applies, where appropriate, to Obstetrics.

SURGICAL PROCEDURES

Preamble:

FOR DEFINITION OF THE ROLE OF THE REFERRING PHYSICIAN, SEE REFERRING PHYSICIAN SERVICES ON PAGE 12.

FOR DEFINITION OF THE ROLES OF THE ANAESTHETIST, SEE ANAESTHETIST SERVICES ON PAGE 13.

- (1) The surgical benefit (except for those procedures marked (I.O.P.) includes the major pre-operative visit, i.e. consultation, general or specific assessment, if rendered within 60 days of surgery when (as a result of the major pre-operative visit) the patient proceeds to surgery done by the same surgeon, hospital visits rendered by the surgeon two days prior to surgery, the usual operative procedure, the usual post-operative care rendered by the surgeon while the patient is in hospital, and one office visit for follow-up examination, if necessary. For patients remaining in hospital because of complications, visit benefits may be claimed in addition to the surgical benefit after the second post-operative week. The starting point for calculating the appropriate hospital visit benefit after the second post-operative week is the date of admission if the operating surgeon has admitted the patient or the date of referral if the patient has been referred to the operating surgeon while in hospital.
- (2) When an emergency outpatient surgical procedure (non I.O.P.) is performed in the course of a home or special visit, and the patient is not admitted to hospital, the home or special visit benefit (minor assessment) may be claimed in addition to the procedural fee.
- (3) When a procedure is performed, a procedural benefit, if listed, should be claimed. Substitution of consultation and or visit benefits for procedural benefits (except as in paragraph 4), is not in keeping with the intent of the schedule.
- (4) When a surgical benefit (non I.O.P.) is less than the consultation benefit and the case is referred, the physician may claim for the consultation instead of the surgical benefit. However, to avoid the consultation being counted as such under the OHIP limitation rules of one consultation per year, the physician should claim for the consultation under the surgical procedure nomenclature or code. Since the consultation is replacing a procedural benefit which includes the pre- and post-operative and surgical care, no additional claims beyond the consultation should be made.
- (5) If a physician performs a minor surgical procedure and during the same visit assesses and treats the patient for another completely unrelated and significant problem involving another body system, the physician may claim for the procedure as well as for the appropriate assessment.
- (6) Additional claims for biopsies performed when a surgeon is operating in the abdominal or thoracic cavity may be given independent consideration.
- (7) The O.M.A. supports the Royal College of Physicians and Surgeons in its disapproval of itinerant surgery. The surgical benefits, except those marked I.O.P., include the pre- and post-operative care and when a surgeon engages in itinerant surgery, he should be prepared to provide the post-operative care.

SURGICAL PROCEDURES

- (8) When a subsequent surgical procedure is necessary for the same condition during the same hospitalization or within normal convalescence, the allowance shall be the full benefit for the major procedure and 75% of the usual benefit(s) for other procedures. This will not apply in cases where the subsequent operations are done by another surgeon. This paragraph applies to staged procedures not specifically covered in the schedule.
- (9) When different operative procedures are done by two different surgeons under the same anaesthesia for different conditions, the benefit will be 100% of the list benefit for each condition. Under these circumstances, the basic assistants' units should not be claimed by either operating surgeon; however time units may be charged when appropriate.
- (10) As a general rule, when elective bilateral procedures are performed by two surgeons at the same time, one surgeon should claim for the surgical procedures in accordance with paragraph 15 (one stage) and the other surgeon should claim the assistant's benefit.
- (11) Where two surgeons are working together in surgery in which neither a team benefit or other method of claiming is set out in the schedule, the surgeon should identify himself as the operating surgeon and claim accordingly; the surgeon who is assisting him should identify himself as such and claim the assistant's benefit. Where the second or assistant surgeon is brought into the case on a consultation basis, he may, when indicated, claim a consultation as well but should be prepared to justify it on an I.C. basis. If the nature or complexity of a procedure requires more than one operating surgeon each providing a separate service in his own specialized field, each surgeon may claim the full listed benefit for the procedure he performs. This, however, does not apply to those cases wherein an additional surgeon(s) is involved simply because he may be more skillful at carrying out a procedure which the first surgeon normally should be able to do. Neither does it apply to those cases wherein one or more additional surgeons perform components of a main procedure for which there is a listed combined tariff. For the latter two circumstances, the first portion of this paragraph pertains and the additional surgeon(s) may claim assistant's benefits only, along with consultation and visits if appropriate.
- (12) When a subsequent operation(s) becomes necessary for the same condition because of a complication during the same hospitalization, the full benefit will apply for each procedure.
- (13) When a subsequent operation(s) becomes necessary, for a new condition developing during the same hospitalization, the full benefit will apply for each procedure.
- (14) When a subsequent elective procedure is done for a different condition during the same hospitalization, the benefit for the lesser procedure shall be reduced by 25% unless performed by another surgeon in which case the full benefit will apply.

SURGICAL PROCEDURES

- (15) In bilateral procedures (including “add-ons” (E-codes)), the following benefits will apply unless otherwise stated.
One stage — 75% higher than unilateral benefit.
Two stage (within the same hospital admission) — 75% higher than the unilateral benefit.
Two stage (separate hospital admission) — 100% higher than the unilateral benefit.
- (16) For excision of tumours not specifically listed in this Schedule, claims should be made on an I.C. basis (code **R993**). In submitting claims, physicians should relate the service rendered to comparable listed procedures in terms of time and difficulty (see Preamble, part B, paragraph 27).
- (17) Unless otherwise stated, procedural benefits are for unilateral procedures; the formula under paragraph 15 applies to bilateral procedures.
- (18) When more than one operative procedure is performed (uni or bilateral) by the same surgeon at the same time and, or under the same anaesthetic, the charge for each procedure should be itemized on the claim card. The benefit for multiple procedures shall be the full benefit for the major procedure plus 75% of the listed benefit(s) for additional procedures, except where such combined operations are independently specified as items in this Schedule.
- This does not apply in the case where a normal appendix or simple ovarian or para-ovarian cyst is removed incidentally during an operation, for which no charge should be made.
- (19) Where a procedure is specified as “Independent Operative Procedure (I.O.P.)”, the procedural benefit may be claimed in full. In addition, visit benefits, consultations etc. may be claimed when such services are actually rendered. When an I.O.P. procedure is done in conjunction with other non-I.O.P. procedures, there shall be no charge for the consultation, pre- and post-operative care related to the I.O.P. procedure but the listed I.O.P. benefit may be charged in these circumstances. When multiple or bilateral I.O.P. procedures are performed at the same time by the same physician, the listed procedural benefits may be claimed in full but the pre- and post-operative benefits should be claimed as if only one procedure had been performed.
- (20) When procedures are specifically listed under Surgical Procedures, physicians should use these listings rather than applying one of the plastic surgery benefits listed under operations on skin and subcutaneous tissue.
- (21) Skin grafts or pedicle flaps done during a procedure should be claimed for on their own merit (unless specifically listed as being inclusive for that procedure).
- (22) Cosmetic or Aesthetic Surgery: means a service to enhance appearance without being medically necessary such as (a) surgery for correction of facial wrinkles; (b) surgery for eyelid wrinkles (symmetrical and without a functional problem); (c) rhinoplasty for appearances only; and (d) augmentation mammoplasty for symmetrical deficiency without physiological abnormality. These services are not benefits of OHIP. (See Preamble, Appendix A).

SURGICAL PROCEDURES

- (23) Reconstructive Surgery: is surgery to restore normal appearance and function to any area altered by disease, trauma or congenital deformity. Surgery solely to restore appearance is not included in this definition and emotional, psychological or psychiatric grounds normally are not considered sufficient additional reason for OHIP coverage of such surgery.

Physicians should submit requests to their District OHIP office for authorization of any proposed surgery which may fall outside of OHIP coverage. Among those procedures for which requests *must* be submitted before the procedure is performed are:

- (a) augmentation mammoplasty
- (b) blepharoplasty
- (c) dermabrasion
- (d) epilation of hair
- (e) face lift
- (f) hair transplant
- (g) panniculectomy (lipectomy)
- (h) reduction mammoplasty
- (i) rhinoplasty or septorhinoplasty
- (j) scar revision
- (k) tattoo removal

Requests for authorization of proposed surgery should identify the medical necessity of the surgery. Moreover, since it is the procedure for which the authorization request is being made, it must be adequately described and accurately related to the condition it is intended to alleviate.

Note that when a surgical procedure is not a benefit of the Plan, the associated anaesthetist's charges, assistant's charges and hospital costs normally also are excluded from OHIP coverage.

- (24) Procedural benefits (non I.O.P.) include the removal of sutures where both services are rendered by the same physician unless the removal of sutures is done after one office visit for follow up examination has already been provided. When a physician is entitled to claim for removal of sutures i.e. as outlined in the previous sentence or is a physician other than the operating surgeon or following an I.O.P. procedure, the benefit for removal of sutures or an office visit benefit (if the patient is also assessed) may be claimed but not both.
- (25) No claim should be made for application of plaster associated with fractures or dislocations which have all inclusive benefits which are being claimed by the same physician (refer to Fracture Preamble, paragraphs (e), (1)), or if applied at the time of any surgery. However, if plaster is applied under any other circumstances, the claims for application of plaster should be made in accordance with the schedule listings on page 149.
- (26) The removal of a wire or pin or other device when used for traction or external fixation in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural benefit. Removal of devices used for internal fixation may be charged for in addition to the procedural benefit.

SURGICAL PROCEDURES

- (27) The benefit for total hip replacement also includes denervation of the hip joint and adductor or abductor tenotomy.
- (28) Where closed irrigation is instituted in a bony cavity, soft tissues or joint during a surgical procedure, add \$36.40 (E550).
- (29) Where a bone graft is required (except for fusions and management of pseudarthrosis) in the course of an operative procedure add \$45.40 (E551) if autogenous bone is taken through a separate incision; add \$36.40 (E552) if autogenous bone is taken through the same incision, and add \$18.20 (E553) if homogenous bone is used.
- (30) When laryngoscopy and bronchoscopy are carried out as combined procedures, the physician may claim for one or the other but not both.
- (31) No claim should be made for bronchoscopy carried out immediately following thoracic surgery under the same anaesthetic by the same surgeon.
- (32) The benefit for gas endarterectomy of a coronary artery is the same as for coronary endarterectomy.
- (33) The surgical benefit for treating a bleeding duodenal or gastric ulcer will be on an I.C. basis.
- (34) When the laparoscope is used as a means of entrance to perform an intra abdominal procedure, no extra benefit for laparoscopy may be claimed.
- (35) When an exploratory laparotomy is performed followed by a colostomy through another incision in the abdomen, the colostomy should be claimed at 100% and the laparotomy at 75% of the listed benefit.
- (36) The benefits for excision, ligation, injection of haemorrhoids and treatment of intra or perianal condyloma accuminata include anoscopy.
- (37) No additional claim should be made for nephroscopy when done at the time of pyelolithotomy or nephrolithotomy.
- (38) In a routine surgical approach to the kidney and related procedures, no additional claim should be made for rib resection carried out for access purposes.
- (39) Visit benefits only, as applicable, may be claimed for changing a suprapubic tube.
- (40) A T.U.R. followed within 10 days by a bilateral orchidectomy because of carcinoma of the prostate should be claimed in accordance with paragraph (8) of the Surgical Preamble.
- (41) No claim should be made for pre-cystoscopy dilation of the male urethra unless urethral stricture is the primary diagnosis. No claim should be made for dilation of the female urethra when done at the same time as cystoscopy.
- (42) If a D & C is part of the normal procedure carried out by the surgeon prior to other gynaecological surgery, no extra benefit should be claimed for the D & C. If the D & C is done because of disease or for therapeutic reasons prior to other gynaecological

SURGICAL PROCEDURES

surgery, the D & C should be claimed at 75% of the listed benefit in keeping with paragraph (18) of the Surgical Preamble.

- (43) Tubal ligation benefit regardless of technique-as currently listed in the schedule.
- (44) If culdoscopy is performed as part of a sterilization procedure, no extra claim should be made for the culdoscopy.
- (45) Consultation and visit benefits related to infertility investigations may be claimed in addition to the benefits for a D & C and hysterosalpingogram with the exception of the service provided immediately prior to surgery.
- (46) When debridement of ears under microscopy is carried out for removal of cerumen or for access purposes only, no charge should be made for the debridement. If debridement of ears under microscopy is carried out because of pathology, a claim may be made for this service.
- (47) When a procedure is performed for which only "local anaesthetic" and/or "general anaesthetic" listings appear, and an anaesthetic is not required, the procedure should be claimed under the "local anaesthetic" listing.
- (48) When the common bile duct is examined during surgery, no additional benefit over and above the surgical benefit may be claimed for the choledochoscopy.
- (49) If claims are being submitted in coded form, the surgeon should add the suffix A to the listed procedural code, the surgical assistant should add the suffix B to the listed procedural code and the anaesthetist should add the suffix C to the listed procedural code.
- (50) Where only one benefit is listed, it shall apply to any physician rendering the service, regardless of specialty.
- (51) With the accord of the Ontario Medical Association, the following guidelines are suggested to assist in the determination of an appropriate charge to submit for independent consideration under code R078 for suture of skin lacerations:
 - 1. The suturing of most simple lacerations smaller than approximately 1½" in length should be coded as R076 and claimed accordingly.
 - 2. Exceptions to this may be lacerations which, in the physician's opinion are difficult because, for example,
 - (a) they are in difficult areas (e.g.: lip, eyelid, eyebrow, corner of eye, etc.), or
 - (b) they are deep such that they require tying off of bleeders or closure in layers (i.e.: subcutaneous and cutaneous).Suture of such lacerations should be coded as R078 and claims for approximately twice the benefit listed for R076 would be appropriate.
 - 3. Similarly, a simple laceration with a length greater than approximately 1½" but less than approximately 3" should be coded as R078 and claimed at approximately twice the R076 benefit. Further, for such lacerations falling within items 2(a) or

SURGICAL PROCEDURES

2(b), above, claims for approximately double this suggested benefit would be appropriate.

- 4. Claims for suture of a laceration requiring extensive debridement may be increased by 50%. Again, code R078 should be used for the total procedure.
- 5. For a combination of 2 or 3 lacerations falling within the foregoing guidelines, each should be assessed individually, the benefits combined in accordance with the multiple surgery rules, and code R078 used for the total procedure.

Eg: For the suturing of a 2½" scalp laceration requiring layer closure, a 1" forehead laceration and ½" laceration through the mucocutaneous border of the lip, the benefit claimed could be calculated as follows:

Scalp	(2x2x10.45)	\$41.80
Cheek	(0.75 x 10.45)	7.84
Lip	(0.75 x 2 x 10.45)	<u>15.68</u>
Total	(R078)	65.32

- 6. More complicated lacerations should be compared in scope and difficulty with other similar services which have definitive benefits listed in the Schedule.
- 7. In every case, claims for R078 should be accompanied by sufficient description of the procedure rendered and an explanation of the charges submitted (see Preamble, part B, paragraph 27).

SURGICAL PROCEDURES

OPERATIONS ON THE MUSCULOSKELETAL SYSTEM

FRACTURES AND DISLOCATIONS

Preamble

- (a) OPEN REDUCTION shall mean the reduction of a fracture or dislocation by an operative procedure to include the exposure of the fracture or dislocation or intra-medullary means of fixation.
- (b) CLOSED REDUCTION shall mean the reduction of a fracture or dislocation by non-operative methods (to include skin traction or K wire or Steinmann's pin for balanced traction.)
- (c) FOR CLOSED REDUCTION with external skeletal or Roger Anderson type apparatus or percutaneous pinning of a fracture or dislocation, the closed reduction benefit plus 40% (E555) may be claimed.
- (d) NO REDUCTION shall mean the treatment of a fracture or dislocation by any method other than that designated in (a), (b), or (c) above.
- (e) The stated benefit is to cover full treatment by the physician claiming that benefit, including necessary after care up to 2 months, (includes both a second or subsequent application of a cast when the fracture has been treated by cast application but no reduction, and Therapeutic Procedures under G467.) except as in (g) and (h) following.
- (f) For combinations of fractures, dislocations, and/or surgical procedures (non I.O.P.), the benefit for the major fracture, dislocation or procedure shall be 100%, and the benefit for other fractures, dislocations and/or surgical procedures shall be 75% of the full listed benefit.
- (g) In cases where two or more reductions (closed or open) are performed on different occasions for one fracture or dislocation by one or more surgeons, the full benefit should be claimed for the final reduction and after care. Previous attempted reduction(s) should be claimed at 75% of the full listed benefit(s) for that reduction.
- (h) When a patient is transferred from an acute care hospital to a chronic or convalescent facility, additional benefits on a chronic care basis shall be allowed to other than the operating surgeon. These benefits shall be based on the chronic care schedule.
- (i) Compound fractures or dislocations, requiring extensive debridement — 50% over the benefit for reduction (E556).
- (j) Open reduction of compound fracture or dislocation requiring reconstructive procedures, skin shifts, or neurovascular damage requiring reconstruction, etc., to be assessed at double the operative benefit (E557). Open reduction of fracture treated by bone graft use codes R321 to R329.

SURGICAL PROCEDURES

OPERATIONS ON THE MUSCULOSKELETAL SYSTEM

FRACTURES AND DISLOCATIONS—Cont'd

- (k) Where a patient is transferred to another surgeon for after care of a fracture or dislocation treated by no reduction or closed reduction, except for emergency splinting (see paragraph (1), below) the surgeon rendering the initial care should claim 75% of the listed benefit and the surgeon rendering the subsequent care 50% except where otherwise specified. In cases involving open reduction, the percentages should be 80% and 45% respectively.
- (l) The benefit for emergency splinting of a fracture in the emergency department should be on the basis of the emergency room visit or the special visit to the hospital, whichever applies, plus application of cast if rendered and if consistent with other portions of this preamble.
- (m) In the case of fractures or dislocations or minor avulsion fractures not requiring reduction, visit benefits (use a fracture diagnosis) shall apply unless a specific benefit is listed. For fractures listed at "visit fees", the following also apply:
 - (1) When two or more fractures, *each* listed at "visit fees", are treated, only one visit benefit should be claimed for each visit, even though more than one fracture is assessed, treated, or re-assessed.
 - (2) When fractures which are listed at "visit fees" are treated along with treatment of fractures which have definite benefits listed, visit benefits should not be claimed in addition to claims for the other fracture care.
 - (3) When fractures which are listed at "visit fees" are treated along with the performance of non-IOP surgery, visit benefits should not be claimed in addition to claims for the surgery.
 - (4) For the combinations described in items (2) and (3) above, visit benefits are appropriate for follow-up care of the fractures listed at "visit fees" only for visits which, because of these fractures, are required in addition to the usual after-care of the other fractures or other surgery.
- (n) In case of fractures or fracture dislocations with associated paraplegia, hospital visit benefits may be charged in addition to the surgical benefit after three weeks of post-operative care.
- (o) The removal of a wire or pin or other device when used for traction or external fixation in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural benefit. Removal of devices used for internal fixation may be charged for in addition to the procedural benefit.

Special Announcement

The Government of Ontario has instituted a program making certain Statutes and Regulations available in the French language. This is a long-term, on-going undertaking and the first translated statutes are expected to be ready for distribution early in April, 1979. These statutes are: The Ministry of Northern Affairs Act, 1977, The Compensation for Victims of Crime Act, 1971 and The Human Tissue Gift Act, 1971. Additional translations will be listed in both our Monthly Checklist and French Catalogue as they become available.

Le Gouvernement de la Province d'Ontario a mis sur pied un programme qui assurera la traduction en langue française d'un certain nombre de lois statutaires et de règlements. Il s'agit d'une initiative à long terme et les premières traductions de lois statutaires devraient être prêtes à être distribuées au début du mois d'avril 1979. Ces lois sont la Loi de 1977 sur le ministère des Affaires du Nord, la Loi de 1971 sur la compensation des victimes d'actes criminels et la Loi de 1971 sur le don de tissus humains. D'autres traductions seront ajoutées à la fois à la liste mensuelle de contrôle et à notre catalogue français à mesure qu'elles seront disponibles.

THE ASSESSMENT ACT

O. Reg. 133/79.

Equalization of Assessments made
under Section 86 of
The Assessment Act.
Made—March 1st, 1979.
Filed—March 1st, 1979.

REGULATION MADE UNDER
THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE
UNDER SECTION 86 OF
THE ASSESSMENT ACT

1. The equalization of assessments under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 86 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1978 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1978 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1978 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1978 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1978 against the total assessment for that prescribed class of real property in that municipality.
2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1975, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.
3. The total assessment, including assessments made under section 42 or 43 of the Act, of the

real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.

4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of a prescribed class of real property by reason of assessments made under section 42 or 43 of the Act. O. Reg. 133/79, s. 1.

2. This Regulation applies to the municipalities named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in each such municipality for the year 1978 for taxation in the year 1979. O. Reg. 133/79, s. 2.

3. For the purposes of this Regulation, the real property situate in each municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedule for that municipality, and all real property in the municipality shall be allocated to that prescribed class of real property that most nearly describes the physical nature and characteristics of the real property. O. Reg. 133/79, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 133/79, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed either,

- (a) as residential and comprising not more than two residential units, including vacant land municipally zoned principally for residential development described in this clause; or
- (b) as conservation or recreational land.

Special Announcement

The Government of Ontario has instituted a program making certain Statutes and Regulations available in the French language. This is a long-term, on-going undertaking and the first translated statutes are expected to be ready for distribution early in April, 1979. These statutes are: The Ministry of Northern Affairs Act, 1977, The Compensation for Victims of Crime Act, 1971 and The Human Tissue Gift Act, 1971. Additional translations will be listed in both our Monthly Checklist and French Catalogue as they become available.

Le Gouvernement de la Province d'Ontario a mis sur pied un programme qui assurera la traduction en langue française d'un certain nombre de lois statutaires et de règlements. Il s'agit d'une initiative à long terme et les premières traductions de lois statutaires devraient être prêtes à être distribuées au début du mois d'avril 1979. Ces lois sont la Loi de 1977 sur le ministère des Affaires du Nord, la Loi de 1971 sur la compensation des victimes d'actes criminels et la Loi de 1971 sur le don de tissus humains. D'autres traductions seront ajoutées à la fois à la liste mensuelle de contrôle et à notre catalogue français à mesure qu'elles seront disponibles.

Special Announcement

The Government of Ontario has instituted a program making certain Statutes and Regulations available in the French language. This is a long-term, on-going undertaking and the first translated statutes are expected to be ready for distribution early in April, 1979. These statutes are: The Ministry of Northern Affairs Act, 1977, The Compensation for Victims of Crime Act, 1971 and The Human Tissue Gift Act, 1971. Additional translations will be listed in both our Monthly Checklist and French Catalogue as they become available.

Le Gouvernement de la Province d'Ontario a mis sur pied un programme qui assurera la traduction en langue française d'un certain nombre de lois statutaires et de règlements. Il s'agit d'une initiative à long terme et les premières traductions de lois statutaires devraient être prêtes à être distribuées au début du mois d'avril 1979. Ces lois sont la Loi de 1977 sur le ministère des Affaires du Nord, la Loi de 1971 sur la compensation des victimes d'actes criminels et la Loi de 1971 sur le don de tissus humains. D'autres traductions seront ajoutées à la fois à la liste mensuelle de contrôle et à notre catalogue français à mesure qu'elles seront disponibles.
